## 🎓 Education

### University of Virginia

*School of Engineering and Applied Science, B.S. Computer Science*

August 2018 – May 2022

Charlottesville, VA

### The Lawrenceville School

*Graduated with High Honors*

September 2015 – May 2018

Lawrenceville, NJ

## </> Work Experience

### Tinder

*Software Engineering Intern*

Los Angeles, CA

May 2020 – August 2020

### Sigora Solar

*Software Engineering Intern*

Charlottesville, VA

June 2019 – August 2019

- Contributed to the development of an internal application suite to overhaul solar sales processes
- Developed feature additions and bug fixes and created an end-to-end QA testing environment
- Initiated the development of an internal code standards wiki for better codebase consistency
- Used React, GraphQL and AWS services, all in an Agile/Scrum environment

### University of Virginia Career Center

*Technical Services Assistant*

Charlottesville, VA

October 2018 – Present

- Develop web applications for Career Center projects using React, Node.js and Firebase / Google Cloud
- Provide technical support to students, staff and employers at on-campus job fairs and other events
- Maintain and improve the office's hardware and server infrastructure

### The Missing Piece

*Fullstack Software Engineer*

Tampa, FL

July 2017 – Present

- Designed and developed an internal web application suite interfacing with an existing store database
- Saved employees 2 hours daily at each store by implementing automated merchandise tasks, rapid form generation tools and a customer rewards platform
- Remotely develop additional sales-related applications
- Use React, Node.js and Microsoft Access with Sentry for error monitoring; managing local deployment

## 👥 Leadership Experience

### HackCville

*Deploy Program Lead*

Charlottesville, VA

January 2020 – Present

*Deploy Program Coordinator*

August 2019 – December 2019

- Teach and manage 10-week course on software development and deployment to 35+ college students
- Developed curriculum on topics such as Docker, Django / Flask, AWS services and system design

*Launch Lead Instructor*

August 2019 – Present

- Teach the Advanced Software Engineering track of summer internship program for college students
- Develop curriculum focused on fullstack development with React and Node.js
- Work directly with students to provide individualized code review and demonstrate best practices

## ⚙️ Skills

**Proficient in:** JavaScript (React + React Native + Node.js), HTML / CSS, Git, Docker, Mathematica

**Experienced in:** Gatsby, GraphQL, Firebase / Google Cloud, AWS, PostgreSQL, Unix, Vue.js, Python
